FULL-STACK WEB DEVELOPER

Highly skilled web developer with 7 years experience creating dynamic, high-converting web applications. Proven track record of delivering exceptional web solutions for diverse clients. Proficient in front-end and back-end development technologies, UI/UX design, SEO, and project management. Excel at collaborating with teams or autonomously to reach prescribed goals.

PROFESSIONAL EXPERIENCE

Web Developer - Freelance - Chicago, Illinois **July 2023 to Present**

- Design and develop visually appealing, high-converting web pages for small to mid-sized businesses.
- Implement back-end CRUD functionality using PHP, SQL and MySQL.
- Collaborate closely with clients to understand project requirements, provide regular updates, and ensure satisfaction.
- Conduct testing, debugging, and optimization to deliver high-performance websites and web applications.
- Manage multiple projects simultaneously, adhering to project timelines and budgets.

Web Developer - Loyola Press - Chicago, Illinois **August 2021 to June 2023**

- Successfully debugged a two-year-old server issue that was causing websites to go down daily.
- Boosted network and system data availability and integrity through preventive maintenance and upgrades.
- Build and maintain websites and web applications, deployed on Amazon Web Services cloud computing platform.
- Collaborate with various departments to gather technical requirements and assets for digital textbooks.

Web Developer - VMS - Downers Grove, Illinois **March 2019 to January 2022**

- Design, develop and implement merchant WordPress websites using Gutenberg, including registering domains and configuring DNS and A/CNAME records.
- Monitor, maintain and updated plugins and code custom functionality for WordPress websites using via cPanel.
- Communicate with management and merchants regarding the status of websites under construction.
- Designed a visually appealing prototype web application, which led to high praise from management.
- Successfully debugged more than 20 websites upon employment, getting them back online.

Web Developer - Freelance - Chicago, Illinois **April 2017 to February 2019**

- Provide front-end web development services by creating high-converting websites and pages using CMSs like Contentful, Drupal and WordPress.
 - Create clean, reusable, cross-browser compatible code producing visually appealing web pages.
 - Collaborate with stakeholders to find creative and innovative solutions that deliver superior results.
 - Conduct website audits, identify areas for improvement, and implement SEO best practices.
