FULL-STACK WEB DEVELOPER

Highly skilled Web Developer with 8 years of experience in creating dynamic and user-friendly websites. A proven track record of delivering exceptional web solutions for diverse clients. Proficient in front-end and back-end development technologies, UI/UX design, and project management. Excel at collaborating with teams or working autonomously to reach prescribed goals.

WORK EXPERIENCE

Web Developer, July 2023 to Present
Freelance - Chicago, IL

- Design and develop custom websites for clients using HTML, CSS, JavaScript and Bootstrap on the front-end.
- Implement back-end functionalities using PHP, phpMyAdmin, and SQL.
- Collaborate closely with stakeholders to understand project requirements, provide regular updates, and ensure satisfaction.
- Conduct testing, debugging, and SEO to deliver high-performance, high-converting websites.
- Manage multiple projects simultaneously, adhering to project timelines and budgets.

Web Developer, Aug 2021 to June 2023
Loyola Press - Chicago, IL

- Successfully debugged a two-year-old server issue that was causing websites to go down daily.
- Boosted network, system data availability and integrity through preventive maintenance and upgrades.
- Designed, built and maintained WordPress websites using HTML, CSS, PHP and JavaScript ensuring they are ADA 508 compliant.
- Collaborated with various departments to bring new digital textbooks to market.

Web Developer, March 2019 to February 2022
Velocity Merchant Services - Downers Grove, IL

- Oversee the design, development and implementation of merchant WordPress websites, including registering/transferring domain names, DNS and A/CNAME records.
- Monitored, maintained and updated plugins and coded custom functionality using HTML, CSS, JavaScript and PHP.
- Communicated with management and clients about the status of websites under construction.
- Designed a visually appealing prototype application, which led to high praise from management.

Web Developer, April 2017 to February 2019
Freelance - Chicago, IL

- Providing front-end web development services by creating high-converting websites and pages using CMSs like Contentful, Drupal and WordPress.
- Created clean, reusable, cross-browser compatible code to design and create visually appealing web pages.
- Collaborated with end-users to find creative and innovative solutions that delivered superior results.
- Conducted website audits, identified areas for improvement, and implemented SEO best practices.
